Founded in 1885 by ceramists and entrepreneurs looking to develop abrasives tailored to the growing needs of the industry, Norton is now established in 28 countries. The brand is known for its floor finishing solutions, offering a balance between quality and affordability. Norton provides three product lines to meet the diverse needs of professionals. Durite is a range of silicon carbide abrasives with an excellent quality-to-price ratio. BlueFire is a High-performance product line designed for demanding jobs, featuring advanced technology. And Red Heat is a premium series incorporating exclusive abrasive technology for an unparalleled finish.

NORTON
SAINT-GOBAIN

7” x ⅞” Edger Sanding

Norton edger sanding discs are used at every stage of hardwood floor sanding. They are available in three categories: Durite (black), Blaze (orange), and Redheat (red). Designed for optimal performance, Norton abrasives ensure superior quality.

7⅞ x 29½ and 11⅞ x 29½ Sanding Belt

Norton sanding belts are essential for every stage of hardwood floor sanding. They are available in two categories: Durite (black) and Redheat (red). Built for durability and performance, they ensure efficient sanding and a high-quality finish.

Note : For more details on available colors and grits, refer to the product list at the end of this catalog.

8” and 12” Sanding Roll

Norton sanding rolls are key for all phases of hardwood floor sanding. Available in two categories, Durite (black) and Redheat (red), they offer excellent performance and quality to meet professional standards.

16” SandDollar Abrasive Disc

La gamme de disques abrasifs SandDollar de Norton a été spé-
The Norton SandDollar abrasive disc range has been specifically developed for intermediate sanding on varnished surfaces. Designed to reduce airborne dust, these discs ensure strong adhesion between coats and eliminate visible sanding marks in the final finish.

Grains : bleu (100-120) rouge (120-150)

15” to 17” Screenback Disc

Screenback abrasive discs are used for intermediate sanding between finish coats. Made of 100% silicon carbide, they provide professionals with unmatched durability and quality.

2¾ X 45 yards Adhesive Roll

Norton self-adhesive sanding paper is designed for intermediate finish sanding. Used in combination with a brown pad, it is ideal for sanding water-based finishing systems.

Grains : 150 • 180 • 220

Beartex

The Norton Beartex range includes a variety of maintenance pads. They are commonly used for applying penetrating oils and cleaning heavily soiled surfaces.

MC ABRASIF

PREMIUM+ PREMIUM

UNIQUE+

7” x 7/8” PREMIUM PLUS Edger Sanding Disc

The PREMIUM PLUS edger sanding discs from the MC Abrasif range are specifically designed to provide professionals with an efficient solution for sanding prefinished hardwood floors. Tested on-site by industry experts, these discs are durable, high-performing, and exceed all industry standards.

7” x 7/8” PREMIUM Edger Sanding Disc

The PREMIUM edger sanding discs from the MC Abrasif range are also designed for professional prefinished hardwood floors sanding. Known for their durability and performance, they have been tested and approved by industry specialists and surpass industry requirements.

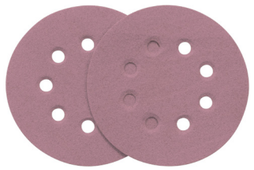

7 7/8 x 29½ and 11 7/8 x 29½ PREMIUM PLUS Sanding Belt

PREMIUM PLUS sanding belts are ideal for sanding prefinished hardwood floors. Designed for long-lasting performance and excellent efficiency, they meet the highest industry standards.

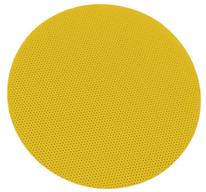

7 7/8 x 29½ and 11 7/8 x 29½ PREMIUM Sanding Belt

PREMIUM sanding belts from the MC Abrasif range are developed to meet the needs of professionals working with prefinished hardwood floors. Their durability and performance make them essential for high-quality sanding work.

5” UNIQUE PLUS 8-Hole Disc

UNIQUE PLUS 8-hole discs from the MC Abrasif range provide exceptional sanding quality and durability. Designed for applications requiring an ultra-durable disc, these products ensure excellent adhesion and stability thanks to the high-quality materials used in their construction.

16” UNIQUE PLUS Intermediate Disc

UNIQUE PLUS 16” discs have been developed to meet the growing demand for intermediate sanding before staining or finishing. Used as a final step to even out surfaces, they are also perfect for deglossing finishes and creating mechanical adhesion, ensuring superior surface quality.

UNIQUE PLUS Blue Nylon Pad

The UNIQUE PLUS Blue nylon pad is designed to provide perfect stability and consistent sanding when used with UNIQUE PLUS 16” discs.

Note: For more details on available colors and grits, refer to the product list.

FINISHES **BERGER-SEIDLE**

Berger-Seidle is a subsidiary of the Berger Group, an independent family-owned company founded in 1926. Based in Germany's Deutsche Weinstraße region, the company has a worldwide distribution network and is a key player in the floor coating industry. The AquaChoice product line is designed to help wood professionals innovate while maintaining optimal finish quality. With multiple industry accolades in recent years, Berger-Seidle continues to push innovation, bringing proven and high-performance products to the market.

cure 7 days

ADHESIVES **BOSTIK & WAKOL**

Ultra-Set SingleStep2

Ultra-Set SingleStep2 is an innovative product combining an adhesive, moisture control, and a noise-reducing membrane, all in a single application. USS2 provides exceptional durability, superior moisture control, and advanced acoustic performance.

Format : 4 gallons

200 pi² / U
24 to 48 h
cure 7 days

MS 228

MS 228 is a one-component, MS polymer-based adhesive specifically designed for interior installation of engineered wood flooring. It is solvent-free, water-free, and offers high elasticity, making it ideal for use on both absorbent and non-absorbent substrates.

Format : 4 gallons

150 pi² / U
24 to 48 h
cure 7 days

MS 260

MS 260 is a one-component, firm-elastic adhesive based on MS polymer technology. It's designed for the interior installation of a wide range of wood flooring types, offering a perfect balance between strength and elasticity. This adhesive is solvent-free, water-free, and low in emissions, making it safe and efficient for both installers and end users.

Format : 4 gallons

150 pi² / U
24 to 48 h
cure 7 days

MS 262

MS 262 is a firm-elastic, one-component adhesive based on MS polymer technology, specially designed for the installation of wood flooring and cork flooring in interior applications. It's optimized for tube application (sausages), making it especially efficient for clean, controlled dispensing on-site.

Format : 4 gallons

35 to 50 pi² / U
24 to 48 h
cure 7 days

The coverage of adhesives can vary depending on the trowel and substrate used during installation.

MAINTENANCE PRODUCTS **MC CHROMA & PRATO-VERDE**

Impec

215 to 320 pi² / L

Impec is a specially formulated cleaner for all varnished, pre-finished, or laminate hardwood floors. It leaves virtually no soap residue, ensuring a flawless, streak-free finish. It can also be used on any water-resistant surface.

Format : 946 ml

Impec concentré

100 to 215 pi² / L

Concentrated version of the Impec cleaner.

Format : 250 ml

Secondo Clean

Secondo Clean is a natural soap for the maintenance of interior oiled wood. It is composed of derivatives of coconut and soybean oils. Secondo Clean cleans and nourishes the wood while leaving a protective layer on the treated surface.

Format : 946 ml

Secondo Maintenance

2 500 pi² / L

Secondo Maintenance is an emulsion of oils and waxes designed for the protection and care of interior oiled wood. Secondo Maintenance repairs, protects against water and lightly enhances the sheen of oiled wood.

Format : 946 ml

Secondo Prep

Secondo Prep is a powerful detergent designed for a thorough cleaning of interior oiled wood before applying a new coat of finishing oil. It removes stains and residues from oil and maintenance products, without damaging the wood fibres.

Format : 946 ml

MAINTENANCE PRODUCTS **PRATO-VERDE**

Prato Prep

Prato Prep is designed for the cleaning of untreated wooden surfaces before the application of Prato-Verde products. It helps remove microscopic dust particles after sanding, reduces tannins, and enhances colour intensity. Prato Prep can also be used for tool cleaning.

Format : 946 ml

Pareo Clean

200 pi² / L

Pareo Clean is a natural soap designed for the maintenance of outdoor oiled woods. Pareo Clean effectively removes dirt and moisturizes wood fibres, thanks to its composition of coconut and soybean oil derivatives.

Format : 946 ml

Pareo Maintenance

200 pi² / L

Pareo Maintenance is a product designed for the protection and care of outdoor oiled wood. Pareo Maintenance is an emulsion composed of oils, waxes, and UV-resistant additives that help restore the oil degraded by the elements and create additional protection against water.

Format : 946 ml

Pareo Prep

200 pi² / L

Pareo Prep is a biodegradable and vegetation-safe cleaner designed to prepare outdoor wooden surfaces before applying a Prato-Verde product, enhancing adhesion. Pareo Prep is also formulated to whiten weathered outdoor woods. It effectively removes dirt, mould stains, and algae.

Format : 946 ml

Pareo Reset

200 pi² / L

cure 12 to 48 h

Pareo Reset is a biodegradable and vegetation-safe stripper designed for the removal of exterior wood finishes before applying a Prato-Verde product. Pareo Reset works on stained and/or oiled woods, whether clear or semi-clear. It can be used on decks, sidings, fences, and other wooden projects.

Format : 946 ml

MACHINERY **AMERICAN SANDERS**

American Sanders specializes in the design and manufacture of professional machines and equipment for the preparation and finishing of wood floors. The brand is recognized for its reliable and high-performing solutions, which include sanders, industrial vacuums, accessories, and wood treatment products. American Sanders' equipment is developed to meet the needs of professionals in flooring renovation, construction, and maintenance, with a focus on efficiency and ease of use. The company also upholds high environmental and safety standards in its manufacturing processes.

Polisseuse 225FP / 225DC

The 225 FP Polisher is designed for polishing and cleaning floors, particularly for professional applications. This model is a robust and efficient tool, ideal for commercial and industrial spaces. It is also available with an optional dust control system (225 DC).

Edger 7R

The 7R Edger Sander is a precision sanding tool specifically designed for tight spaces where larger sanders cannot reach. It is highly valued by woodworking professionals, particularly for sanding floor edges, corners, and other hard-to-access areas.

MACHINERY **GALAXY**

Galaxy is a brand specializing in the production of floor sanding machines, focusing on long-term performance and reliability. To ensure the highest quality, over 90% of its machine components are manufactured in-house. Each unit undergoes thorough inspection before being released to the market. With an emphasis on innovation and superior performance, Galaxy Floor Sanding Machines has established a strong reputation in the sanding industry.

Galaxy Serios

The Serios Belt Sander is designed to deliver exceptional performance, particularly for professionals working on hardwood floor sanding projects and other wood surfaces. It is manufactured by Galaxy, a well-known brand in the sanding equipment industry, recognized for the durability and performance of its machines.

Galaxy Elite

The Elite Edger Sander is a highly popular choice in the sanding industry, particularly for finishing work along hardwood floor edges, around baseboards, and in other hard-to-reach areas where larger sanders cannot operate. This model is praised for its performance, maneuverability, and reliability.

Lägler is a family-owned company that has specialized in the production of parquet sanding machines for over 60 years. It is known for its commitment to quality, durability, and innovation. Manufacturing takes place in Germany, where strict quality control ensures top-tier production standards. With additional facilities in the United States and distributors in over 120 countries, Lägler supports flooring professionals worldwide. The company also offers a specialized training program for sanding professionals.

Lägler®

Hummel

With its sophisticated and durable technology, combined with outstanding performance, the HUMMEL Belt Sander is the leading choice for hardwood floor sanding. For over fifty years, it has been a trusted tool for professionals worldwide. It is both powerful and easy to use and maintain, with a simple belt change system and easy disassembly.

Modèle : Hummel 8”

SuperHummel

The SUPERHUMMEL is a high-performance belt sander designed for sanding large areas, making it ideal for public spaces such as schools, gymnasiums, and exhibition halls. This machine stands out for its efficiency, quick belt replacement system, and excellent dust extraction capacity.

Modèle : SuperHummel 12"

Trio

TRIO is a triple-disc Planetary Sander specifically designed for fine sanding, such as finishing hardwood and floating floors before applying stain and/or finishing oil. Its ergonomic construction makes it easy to handle and reduces physical strain. The integrated filtration system ensures efficient dust extraction, allowing for near dust-free sanding.

Elan

ELAN is a compact and maneuverable sander designed for sanding edges and wooden stairs. It is popular among both professionals and DIY enthusiasts due to its lightweight design and ergonomic handling, making it easy to use in typically hard-to-reach areas.

Unico

The UNICO edger sander is designed for professional hardwood floor sanding. This machine stands out for its durability, ergonomic design, and efficiency. Equipped with an LED light for working in low-light conditions, UNICO is ideal for removing old layers of varnish or paint and ensures precise sanding in difficult-to-access areas.

Flip

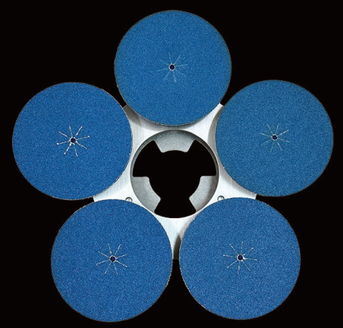

FLIP is a Sander specifically designed for sanding edges and corners, combining excellent ergonomics, ease of use, and efficiency. Thanks to its exceptional dust extraction power and practical dust bag disposal system, it produces minimal dust during operation.

Single

SINGLE is a versatile and robust Buffer, ideal for a variety of applications such as sanding, cleaning, and treating hardwood floors. Its universal 406 mm diameter plate allows it to be used for tasks such as polishing and dry cleaning. Featuring an ergonomic handle and adjustable working angle, it is easy to maneuver. Additionally, it is equipped with an external vacuum adapter, ensuring optimal dust management.

THE REPAIR SHOP

QUALITY, SERVICE AND EXPERTISE
SINCE 35 YEARS.

For over 90 years, Festool has designed high-end power tools for craftsmen and woodworking professionals. The brand focuses on quality, durability, and precision, making work easier for users while optimizing results. Festool's system-based approach ensures that its tools and accessories are compatible, maximizing efficiency. With over 350 patents filed and 80 industry awards, the company is widely recognized for its innovation and its ability to deliver solutions tailored to market needs.

FESTOOL

NEED AN ACCESSORY ?

Need a filter, adapter, sanding pad, sandpaper, or any other Festool-approved accessory or part? Don't worry, we've got you covered. Plus, you can rest assured you're equipping your tool in the best possible way.
